

3. (Reiterated) A lubricant composition as claimed in claim 1 wherein n=8 to 30.

8. (Reiterated) A lubricant composition as claimed in claim 1 wherein an anti-foaming agent in the range 2 to 100 ppm is additionally present.

11. (Reiterated) A lubricant composition comprising:

(1) a polyalkylene glycol having the formula

where R is an alkyl group with 1-4 carbon atoms and n = 1 to 35;

(2) an ester selected from the group consisting of a polyol ester, an aliphatic diacid ester, an aromatic diacid ester or a trimellitate; and

(3) 2 to 100 ppm of silicone-free antifoaming agent.

Please add the following new claims:

--12. (New) The lubricant composition of claim 8 wherein the antifoaming agent does not contain silicone.

13. (New) The lubricant composition of claim 1 wherein said polyol ester is an ester of pentaerythritol.

14. (New) The lubricant composition of claim 1 wherein said polyalkylene glycol and polyol ester are present in a weight ratio of about 70:30.

15. (New) A composition comprising a lubricant and water, wherein said lubricant comprises:

(1) 90 to 55 weight percent of a polyalkylene glycol having the formula

where R is an alkyl group with 1 to 15 carbon atoms and n = 1 to 35; and  
(2) 10 to 45 weight percent of a polyol ester;  
wherein said lubricant and water do not form a stable emulsion.

16. (New) The composition of claim 15 wherein said polyol ester is an ester of pentaerythritol.

17. (New) The composition of claim 15 wherein said polyalkylene glycol and polyol ester are present in a weight ratio of about 70:30.

18. (New) An air compressor lubricated with a lubricant composition comprising:  
(1) a polyalkylene glycol having the formula

where R is an alkyl group with 1-15 carbon atoms and n = 1 to 35; and  
(2) a polyol ester.

19. (New) The air compressor of claim 18, wherein R is an alkyl group with 1 to 4 carbon atoms.

20. (New) The air compressor of claim 18 wherein n=8 to 30.

21. (New) The air compressor of claim 18 wherein an antifoaming agent in the range 2 to 100 ppm is additionally present.

22. (New) The air compressor of claim 18 wherein said polyol ester is an ester of pentaerythritol.

23. (New) The air compressor of claim 18 wherein said polyalkylene glycol and polyol ester are present in a weight ratio of about 70:30--
